

CMS MODIFIES TELEHEALTH RULES

ALL MEDICARE RECIPIENTS IMMEDIATELY ELIGIBLE

Reimbursement rates identical to office visits

[Read Emergency Telehealth Practice Guidelines](#)

The information you need is in the links above.

CMS just announced major changes to Medicare telemedicine rules. Relaxed interstate licensing; allowing telemedicine encounters to be billed as office visits; permitting most forms of videoconferencing. The nation needs to harness the power of telehealth now, and all practices are urged to participate.

We recommend utilizing any telehealth capability built into your EMR. If you are looking for an 'app' we can recommend [Medici](#) (previously 'Chiron'). It can be downloaded and implemented immediately with a cost of ~\$150/provider/month. *(We have no affiliation with Medici)*

We're working hard to send out good advice in non-threatening ways. Here's a brief example:

**YOUR HEALTH TEAM
IS WATCHING
OVER YOU**

Addressing CoVid-19 head-on

Our coaches are providing members with CDC-sourced information on CoVid-19 symptoms. We are asking screening questions per CDC protocols. We draw from our library of the latest public announcements and advisories that can be sent by email or text. Shorter calls but higher frequency are helping bring calm to

members.

A perfect world does not need a premium service like ours with instantly customizable push-messaging. But our services are built for the real world ... ready to meet the challenges of the unexpected.

We are a team. We are all in this together.
